No:

Dear VEAC or responsible officer

I write as a long-standing resident of Moreland Council.
Please retain Edgar's Creek Parkland as public open space.
As someone living in the inner-city area of Brunswick I have enjoyed
the opportunity of walking with my dogs (on leash of course!) in the
rural environment provided at this gem of parkland. Public calming
space is good for the soul, as well as being increasingly important
for the lungs of our State. To see green space after the bushfires
is a welcome tonic to Victorians.
As a psychologist I am aware of the relaxation benefits of such open
space ...
Warm regards
Bronwyn Lewis
