Description:

Hello, I wish to make a submission to the Central West Investigation. Being a keen hunter, fisher and lover of the outdoors I am totally against the change in status of state forest in the investigation area. People need these areas where they can fossick, take dogs, hunt, camp, 4wd and generally get away from the over regulation that is in other tracks of public land. To say that some of these activities will be allowed in 'designated areas' in the new park is not good enough. To lose 79,000 ha of state forest st the swipe of a pen is disgraceful. I have seen a similar situation happen at Barmah, and the forest is in a bad state compared to when it was a state forest (I have been visthere for nearly 30 years). Thank you for listening Brett Ainsworth
